

Key Features

- Metal film technology
- Non-flammable
- High power in small package
- High stability, reliability and uniformity characteristics
- Good performance for pulse applications
- Defined interruption behavior (fusing time)
- Various forming styles

The RR Series is manufactured by depositing a homogeneous film of metal alloy onto a high-grade ceramic body. After a helical groove has been cut in the resistive layer, tinned connecting wires of electrolytic copper are welded to the end-caps. The resistors are coated with a red, non-flammable lacquer, which provides electrical, mechanical and climatic protection. The coating is resistant to all cleaning solvents in accordance with MIL-STD-202, method 215 and IEC 60068-2-45.

Pulse Characteristics -

1W

Condition Test: Resistance change ≤±5% with pulse 1000 cycles as like the figure (reference only).

- 1. Added power and added voltage are within the lower teritory of this graph.
- 2. Added in normal temperature and humidity.

Maximum permissible peak pulse power (Pmax) as a function of pulse duration (Ti)

Ti(S)

Maximum permissible peak pulse power (Pmax) as a function of pulse duration (Ti)

Condition Test: Resistance change ≤±5% with pulse 1000 cycles as like the figure (reference only).

- 1. Added power and added voltage are within the lower teritory of this graph.
- Added in normal temperature and humidity.

3W

Maximum permissible peak pulse power (Pmax) as a function of pulse duration (Ti)

Condition Test: Resistance change ≤±5% with pulse 1000 cycles as like the figure (reference only).

- Added power and added voltage are within the lower teritory of this
- 2. Added in normal temperature and humidity.

Marking

The nominal resistance and tolerance are marked on the resistor using four or five coloured bands in accordance with IEC publication 60062 "Colour code for fixed resistors". Standard values of nominal resistance are taken from the E24/E96 series for resistors with a tolerance of ±5% or ±1%. The values of the E24/E96 series are in accordance with IEC publication 60063.
